+91 6306010422 | [anushka010804@gmail.com](mailto:anushka010804@gmail.com) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

## EDUCATION

**Madan Mohan Malaviya University of Technology**

*B.Tech. in Computer Science and Engineering | CGPA: 9.00 / 10.00*

2024 – 2028

*Gorakhpur, Uttar Pradesh*

## TECHNICAL SKILLS

**Languages:** C++, Java, Python, TypeScript, JavaScript, SQL

**Backend & Data:** FastAPI, Node.js, Express.js, Next.js (API Routes), RESTful API design, SQLAlchemy, Prisma, PostgreSQL, SQLite

**Frontend & Tools:** React.js, React Native, Tailwind CSS, Vite, Git/GitHub, Vercel, Figma, unit testing

**Concepts:** Data Structures & Algorithms, OOP, DBMS, System Design, Responsive UI

## EXPERIENCE

**Web & Software Development Intern**

June 2026 – present

*Winkget Express Pvt Ltd*

*Gorakhpur (Hybrid)*

- Developed and shipped features across the company's web and application platform over a 3-month engagement, owning tasks end to end from requirement through implementation, testing, and debugging.
- Built front-end components and backend API endpoints against a database-backed application, implementing CRUD flows and resolving defects surfaced in testing and code review.
- Worked in an agile team, translating requirements from non-technical stakeholders into implemented features and following the team's coding standards.

**Summer Trainee — Cyber Security & Digital Forensics**

June – July 2026

*Cyber Forensics Research Centre, MMMUT | with Cyint Technologies & U.P. Police*

*Gorakhpur*

- Completed a six-week program covering mobile, disk, network, and video/audio forensics, including evidence acquisition, analysis, and preservation practices.
- Applied the training by designing and building the Audio Forensics platform below, implementing chain-of-custody handling and evidence-integrity verification in a working system.

## PROJECTS

**Compliance Automation Service (NIRIKSHAK)** | *Python, FastAPI, SQLAlchemy, SQL*

[GitHub](#) | [Demo](#)

- Automated a manual compliance-review workflow to enable operational scaling, building a deployed backend service that evaluates 10 business rules (financial, geospatial, eligibility) and returns **APPROVED** / **NEEDS\_REVIEW** / **BLOCKED** with a per-rule breakdown.
- Exposed the engine as a standalone REST API (FastAPI) callable by other internal systems, keeping compliance logic modular, swappable, and independently testable from the main application.
- Modeled transactional financial-year ledgers over a relational schema (SQLAlchemy) so running totals stay accurate and auditable on every write.

**Audio Forensics Platform** | *React, TypeScript, Python, FastAPI, SQLAlchemy, FFmpeg*

[GitHub](#) | [Demo](#)

- Built an offline-first full-stack platform with a React/TypeScript front-end and a Python/FastAPI backend over a SQL database, to ingest, process, and report on evidentiary audio files.
- Implemented secure data handling end to end: SHA-256 integrity hashing on upload and AES-256 encryption at rest, with in-memory-only decryption to preserve chain of custody.
- Engineered an FFmpeg-based pipeline for non-destructive audio enhancement and timestamped, speaker-segmented transcription, with automated JSON/PDF reporting.

**Ghost AI — Collaborative Architecture Builder** | *Next.js, TypeScript, PostgreSQL, Prisma*

[GitHub](#) | [Demo](#)

- Developed and deployed a full-stack app pairing a custom web front-end with backend services for real-time multi-user collaboration, integrating third-party products — Clerk (auth), Trigger.dev (async background jobs), Liveblocks (real-time sync) — with Prisma over PostgreSQL on a typed Next.js stack.

## COMPETITIVE PROGRAMMING

**1000+ problems solved** across LeetCode, CodeChef, Codeforces, and AtCoder.

Ratings — [LeetCode](#): 1457 | [CodeChef](#): 1430 | [Codeforces](#): 949 | [AtCoder](#): 119

## LEADERSHIP & RESPONSIBILITIES

**Web & App Development Lead**

May 2025 – Present

*Robotics Club, MMMUT*

*Gorakhpur*

- Own and maintain all official Robotics Club web applications and the society website, gathering requirements from non-technical members and shipping them as working features; organized hands-on Drone and Bot Building workshops with Arduino/Raspberry Pi sessions.

**Creative and Design Head**

April 2025 – Sept 2026

*MMMUT Reso*

*Gorakhpur*

- Conducted web development sessions for 300+ students; maintain the society website and own the end-to-end design workflow in Figma.
